I think that Tui should make the books be on GrassWings or some of the more different tribes. I also think we should figure out what happened to the real Clearsight. Like as a legends series book.

If Tui does write more books I think that the POV should be one of the tribes that we don't really know about or Jerboa. Also there should be a legends book about Clearsight. The way Darkstalker ended was really a cliffhanger for Clearsight and I am sure that most people want to know what happened to her

The last sentence of book 10 says, "'I believe this,' said jerboa, 'is out first visitor from the lost continent.'" Shouldn't the nest book be about them? I think it should be the point of view of the lost continent dragons or the Pyrrha dragons going to the lost continent.

Hi guys my name is Emeralddragon36144. I like to know when book 11 is coming out

1

Books 11-15

ravenjaw71

She might do one book from the POV of Peacemaker- (the dragonet that was originally Darkstalker, until Kinkajou used the last pieces of his magic scroll to rewrite his life and start him over as a totally new dragonet,). with the same mother, Foeslayer, who changed her name to Hope).
Here are some other POV's she might use:

Amber
Anemone (they haven't done this one yet, right?
Pike
Cliff
Sora

There also might be a child of some other main characters, like, ten years latter or something- a dragonet of Sunny and Starflight, or a dragonet of Starflight and Fatespeaker.

Book 11 is the eleventh book in the Wings of Fire series and the beginning of the third arc. Amazon's current release date is June 26th, 2018. The prologue will be set 2,000 years ago, at Clearsight's arrival at the Lost Continent, and was revealed (through the Scholastic forums) to be through Clearsight's point of view. The rest of the book takes place after the second arc, showing how Clearsight's visit to Pantala changed things. It has also been confirmed that the main point of view of the book will be a resident of the Lost Continent and that it will take place there. This was confirmed by Tui T. Sutherland at the Darkness of Dragons launch party[1]. It was also confirmed that the Lost Continent's name is Pantala.
Summary edit
"For centuries there have been rumors of another continent on the dragons' planet -- another land far across the ocean, populated by tribes of dragons very different from those we know. But there's never been any evidence, and most dragons dismissed the rumors as fairy tales.
Until now.
Because it turns out the stories are true.
And the other tribes are coming." -Amazon

It has been thought that clearsight traveled to the lost continent, also that qibli and moon will travel there (they witnessed a new dragon) It's most likely that they follow what she has left behind to find an almighty hidden kingdom full of all types of new tribes. I don't think it would be about them but other characters like lynx or umber. Id like to see new customs and new rituals for the kingdom, like sacrafices or something, or that as you enter the kingdom a sort of godly power enforces no animus magic or nightwing abilities. But like the new dragon they found stops them from sacraficing the pyrhian tribe members to be sacraficed? (Im literally just brainstorming here XD) AND THERE WILL BE PEACE AND LOVE AND FOUR WINGED DRAGONS AND MURDER AND SCAVENGERS CAN CLEARLY COMMUNICATE WITH THEM CAUSE THEY LEARNED DA LANGUAGE AND HNNNGNGNNGGNNG BRING THE NEW BOOK OUT ALREADY IM DYIIIINNNNNNGNGNGNGNGNNNNGGGGGGG!

I'm thinking that one of the books will be from the POV of the dragon from a different tribe of dragons at the end of book 10, Anemone and one of them I believe would be from Kinkajous POV.

I really don't think so. We met Moon slightly in the 5th book, and we met the lost continent character from the 10th book so i am pretty sure the next series is her and possibly other characters we have not met yet 😀

Excuse me, but this thread is more than two years old, so it would be great is you could stop bumping this. Also Tui confirmed the 11th book's PoV is a lost continent dragon's. Possibly the one we met at the end of DoD. I think it is. But PLEASE stop bumping this, or we will ask you politely no more. Thank you.

NEW INFO FOR BOOK 11

Three new tribes: the SilkWings, HiveWings, and LeafWings, one of which is believed to be extinct (HiveWings I believe). The dragon on the cover of The Lost Continent is named Blue. Tui will release the other tribes before the release date (June 26th). It is possible that we could have another Winglet book, maybe from a scavenger's POV. Clearsight's arrival had a huge impact on the dragons there, and she married a SilkWing named Sunstreak. Book 11 will have a prologue from Clearsight's POV and the main POV will be Blue. And finally, there are scavengers on Pantala. That is all I know, if anyone else knows anything more please let me know.
